

Crosskeys Clickers

NEW WhizzClick.

Tired of "control" that stops when your dog is let off the lead?

Then the "WhizzClick." is for you!

Revolutionary in design and function the new whistle and clicker combination has been researched and designed by Stephen G. King UK to provide the next generation training tools.

Its ergonomic shape is comfortable to hold in your hand and the raised button on the clicker makes it easy to find and press.

The combination whistle and clicker with the "Easyclick." technology (NEVER MISS A CLICK) gives you the best of both worlds!

Lets you click every time with less effort -- and with gloves on. No need to fumble for that little opening and then finding that it is the wrong end!

The button has been engineered so that only a small amount of pressure is required to make a double clicking sound. You aren't likely to click early as the mechanism is equalized.

In addition, the clicking element inside the WhizzClick. is made of stainless steel and will not rust.

The clicker sound is quieter for the more sound sensitive dog, although those dogs that have been trained with the traditional box clicker will still understand the lighter sound of the WhizzClick.

The whistle can be used as a cue or command and the clicker to mark the behaviour.

Coming when called is perhaps one of the most important exercises that dogs need to learn, as it is not only useful but also essential for his/her safety.

Using a whistle instead of your voice gives us a tool that makes a unique sound that really works when out of sight, at distance, heavy cover or if the dog is close in windy conditions, which can make it difficult or impossible for the dog to hear verbal commands.

This is the ultimate combination clicker and whistle together with a revolutionary design.

Patent Applied.

Trade enquires welcome.

Clicker Cue Cards by Stephen G. King

A new concept in training, simple, easy to read durable laminated cards to help you solve the BIG 6 problem behaviours in "10 easy steps to good behaviour".

Clicker Cue Cards are a unique, and effective way of training our companion dogs. Each Clicker Cue Card targets a particular misbehaviour and defines each step to solve the problem behaviour all written in "Plain English", and not only will you end up with a well behaved dog, but will have strengthened the bond between you and your canine companion. Clicker Cue Cards target the misbehaviour rather than teach JUST basic obedience.

They cover the BIG SIX misbehaviours:

Selective deafness, (only hearing what they want to hear..)

Pulling on the lead, (When THEY seem to be taking you for a walk)

Jumping up, (Also fun for a while until they nearly knock you over!)

Chewing/destructive behaviour, (Learning what they can chew and less is better)

House soiling, (Not even funny at first)

Play biting. (Fun at first-not so funny when the get bigger)

Clicker Cue Cards are for dogs from six weeks to 16 years, and all breeds of dogs.

A kind and effective training program the whole family can use!
